

3 Year Old Preschool Staff

Our teaching staff works diligently to problem-solve and differentiate instruction because all children learn differently.

Above all, the goal is to create a classroom environment that students feel safe, comfortable and welcome in.

Learning is facilitated through many different modes, including direct instruction, modeling, music, hands-on learning and play.

Play is valued because of the immense benefit it has on children. During play, students develop social, emotional, language, problem-solving, fine motor and gross motor skills. Appropriate toys and activities are provided daily.

Learning environments are provided where children are challenged to learn and encouraged to explore in a Christian setting.

Preschool has a certified teacher, as well as a full time educational aide.
